

# NATHAN "NATAN" WALLACE

As a **Data and Business Geek**, I thrive in challenging and dynamic environments. My experience with KPMG and various start-ups has shown me that I prefer working in smaller companies with many "unknowns" and opportunities to lead, learn, and grow. I am passionate about data analytics and data structures. I enjoy exploring, analyzing, visualizing, and improving the business by using data.

**I bring a unique combination of my love for data, advanced skills, business acumen, and the ability to drive key business decisions with strong communication and leadership abilities.**

## WORK EXPERIENCE

### ● Senior Data Analyst / Data Scientist (Started as Data Analyst)

*Best Self Aesthetics, Remote, La Jolla, CA / 06/2023 – Current*

#### **Ad Hoc Data Analysis and Strategic Insights:**

- Conduct ad hoc data analysis using Python, SQL, and DAX. Presenting the findings directly to the C-Suite (CEO, CFO, Head of Marketing etc.)
- Provide insights on utilization, hiring needs, revenue by ZIP code, and tier pricing strategies. RFM and marketing analysis. Perform retention analysis covering patients, revenue, and rebooking trends.
- Leverage machine learning to predict future revenue, driving strategic business decisions.

#### **Cloud Database Creation, Management, and Reporting:**

- Created a complex cloud-based database, integrating 60+ tables from six data sources.
- Developed data relationships for coherence and usability.
- Designed and implemented over 20 Reports and 50+ Dashboards in PowerBI, utilizing key metrics to facilitate business understanding and decision-making. Role-based reports for executives, managers, providers, sales and marketing teams

### ● Data and Business Analyst

*PANTHER GROUP, Atlanta GA/ 08/2021 – 06/2023*

- Created and administrated the structure of the company's data base.
- Munging and Analyzing data using Python, SQL and PowerBI
- Primarily worked with AWS – SageMaker, Redshift and Quicksight
- Conducted and presented data analysis, visualizations, insights and recommendations to the company's C-Suite

### ● Risk and Compliance Analyst

*KPMG ISRAEL, Tel Aviv / 09/2019 – 02/2021*

- Led processes of automation and streamlined the work methodology which reduced work-time spent on several projects by 40%
- Conducted fraud investigations for the largest banks in the country, identifying patterns within international transactions.
